

# CYSD 7202DT angular contact ball bearings

Various 3-11/32 in D types and sizes to 2540 lbf radial static load capacity: accommodate your 1-1/4 in d CYSD 7202DT angular contact ball bearings requirements.

|                               |                               |
|-------------------------------|-------------------------------|
| d                             | 1-1/4 in                      |
| radial static load capacity:  | 2540 lbf                      |
| D                             | 3-11/32 in                    |
| seal type:                    | Contact with Slinger          |
| housing width:                | 1-1/16 in                     |
| lubrication type:             | Lubrication Fitting           |
| inner ring width:             | 1-9/16 in                     |
| bearing material:             | AISI 52100 Steel              |
| housing material:             | Cast Iron                     |
| series:                       | UEC200                        |
| locking device:               | Accu-Loc                      |
| duty type:                    | Normal Duty                   |
| expansion type:               | Non-Expansion Bearing (Fixed) |
| replacement bearing:          | UE206-20                      |
| radial dynamic load capacity: | 4410 lbf lbf                  |
