

Grader Customized Turntable Slewing Ring Bearing for Engineering Machine

We Provide Extensive Grader Customized Turntable Slewing Ring Bearing for Engineering Machine Selection And 50 mm d Competitive Wholesale Pricing.

d	50 mm
lubrication hole type:	Oil Grooves And Holes In Outer Ring
D	110 mm
dynamic load capacity:	43840
B	40 mm
static load capacity:	49460 lbs
bore type:	Straight
operating temperature range:	Maximum of 250 °F
outer ring type:	Not Split
cage material:	Brass
internal clearance:	C3
series:	Spherical Roller 223 Series
closure type:	Open
