

ISB GX 80 SP plain bearings

How do you find the ISB GX 80 SP plain bearings specification? Manufacturers Online Free check 13 ° misalignment angle:

d	6 mm
radial static load capacity:	1910.88 lbf
misalignment angle:	13 °
operating temperature range:	-22 to 248 °F
shank thread length:	13 mm
head diameter:	18 mm
rod end type:	Female Threaded
head width:	6.75 mm
shank thread size:	M6 x 1
ball width:	9 mm
thread direction:	Left Hand
length to ball center:	39 mm
thread type:	Metric
overall height:	48 mm
lubrication type:	Self-Lubricating
series:	Schaublin®
housing material:	52100 Bearing Steel
manufacturer product page:	Click here
ball material:	Carbon Steel
Weight	0.05 lbs
race material:	Uniflon®
manufacturer upc number:	745795050488
