

# ISB SS 6011 deep groove ball bearings

What are the types of ISB SS 6011 deep groove ball bearings ?  
1 in B Manufacturing Service . Get Your Free, Instant 1-3/4 in compatible tubing outside diameter: price, design 3/4 in bore size: review.

|                                     |                                  |
|-------------------------------------|----------------------------------|
| bore size:                          | 3/4 in                           |
| compatible tubing outside diameter: | 1-3/4 in                         |
| B                                   | 1 in                             |
| compatible tubing gauge:            | 16 ga                            |
| bearing outside diameter:           | 1.62 in                          |
| bearing material:                   | PTFE Reinforced POM              |
| bearing type:                       | Roll End Plain Bearing           |
| operating temperature range:        | Maximum of +225 °F               |
| bore shape:                         | Round                            |
| maximum pv value:                   | 8000                             |
| outside diameter design:            | Straight                         |
| material specification:             | Teflon Added to Delrin or Celcon |
| closure type:                       | Open                             |
