

# ISO 23124 KW33 spherical roller bearings

ISO 23124 KW33 spherical roller bearings 7540 lbf radial dynamic load capacity: with easy-to-use parts graphics, giving you the ability to check parts availability, pricing, 2.0000 in d examine remanufactured options.

|                               |                               |
|-------------------------------|-------------------------------|
| d                             | 2.0000 in                     |
| radial dynamic load capacity: | 7540 lbf                      |
| D                             | 5.1250 in                     |
| radial static load capacity:  | 6570 lbf                      |
| B                             | 6.3750 in                     |
| seal type:                    | Contact Seal                  |
| bore type:                    | Round                         |
| length through bore:          | 2-9/16 in                     |
| duty type:                    | Standard Duty                 |
| finish/coating:               | Powder Coated                 |
| mounting type:                | Four-Bolt Flange              |
| maximum rpm:                  | 3200 RPM                      |
| housing material:             | Cast Iron                     |
| lubrication type:             | Lubrication Fitting           |
| locking device:               | Set Screw                     |
| series:                       | 200                           |
| expansion type:               | Non-Expansion Bearing (Fixed) |
| standards met:                | ANSI/ABMA STD 9-1990          |
