

# ISO 45289/45220 tapered roller bearings

Can't find what -30 to +225 °F operating temperature range: you're looking for ISO 45289/45220 tapered roller bearings ? Our expert 6.5000 in roller diameter: Representatives be 2.8750 in roller width: in contact with you shortly!

roller diameter:	6.5000 in
operating temperature range:	-30 to +225 °F
roller width:	2.8750 in
radial dynamic load capacity:	35840 lbs
d	1.7500 in
radial static load capacity:	44600 lbs
point diameter:	5.0000 in
lubrication hole location:	None
bearing element:	Tapered Rollers
v-groove angle:	90 °
closure type:	Open
width to groove center:	1.4375 in
roller material:	Stainless Steel
