

# ISO GE 560 QCR plain bearings

What are 280 mm d the dimensions of 1960 RPM maximum rpm: a ISO GE 560 QCR plain bearings? Manufacturing Service 420 mm D . Get Your Free, Instant Quote

|                              |                           |
|------------------------------|---------------------------|
| d                            | 280 mm                    |
| maximum rpm:                 | 1960 RPM                  |
| D                            | 420 mm                    |
| operating temperature range: | -30 of +200 °C            |
| B                            | 106 mm                    |
| cage material:               | Brass                     |
| bore type:                   | Tapered 1:12              |
| bearing material:            | Steel                     |
| outer ring type:             | Not Split                 |
| precision rating:            | Not Rated                 |
| internal clearance:          | C0                        |
| finish/coating:              | Uncoated                  |
| closure type:                | Open                      |
| outer ring width:            | 106 mm                    |
| lubrication hole type:       | Lubrication Groove & Hole |
| fillet radius:               | 3 mm                      |
| dynamic load capacity:       | 1780000 N                 |
| series:                      | 230                       |
| static load capacity:        | 2850000 N                 |
