

# KOYO 52FC40335W cylindrical roller bearings

Welcome to Two-Bolt Base mounting: the KOYO 52FC40335W cylindrical roller bearings online seller.

|                               |                               |
|-------------------------------|-------------------------------|
| mounting:                     | Two-Bolt Base                 |
| B                             | 72.4 mm                       |
| d                             | 45 mm                         |
| radial dynamic load capacity: | 5250 kgf                      |
| bore type:                    | Round                         |
| radial static load capacity:  | 3000 kgf                      |
| base to bore centerline:      | 2.6260 in                     |
| base width:                   | 67 mm                         |
| duty type:                    | Heavy Duty                    |
| D                             | 180 mm to 201 mm              |
| housing material:             | Cast Iron                     |
| bolt size:                    | M16                           |
| locking device:               | Eccentric Collar              |
| lubrication type:             | Lubrication Fitting           |
| seal type:                    | Contact with Slinger          |
| series:                       | UGA0300                       |
| expansion type:               | Non-Expansion Bearing (Fixed) |
| replacement bearing:          | UG309                         |
| overall length:               | 240 mm                        |
