## KOYO MM2520 needle roller bearings

100% Authentic. KOYO MM2520 needle roller bearings 180~mm d -30~of  $+200~^\circ\text{C}$  operating temperature range: Highest Quality. Certified Supplier.

| d                            | 180 mm                    |
|------------------------------|---------------------------|
| operating temperature range: | -30 of +200 °C            |
| D                            | 320 mm                    |
| cage material:               | Brass                     |
| В                            | 112 mm                    |
| bearing material:            | Steel                     |
| bore type:                   | Straight                  |
| cage type:                   | Roller Guided             |
| outer ring type:             | Not Split                 |
| precision rating:            | Not Rated                 |
| internal clearance:          | С3                        |
| application:                 | Vibratory Applications    |
| closure type:                | 0pen                      |
| finish/coating:              | Uncoated                  |
| lubrication hole type:       | Lubrication Groove & Hole |
| outer ring width:            | 112 mm                    |
| dynamic load capacity:       | 1710000 N                 |
| fillet radius:               | 3 mm                      |
| static load capacity:        | 2340000 N                 |
| series:                      | 232                       |
| maximum rpm:                 | 2000 RPM                  |
