## KOYO NUP2324R cylindrical roller bearings

Various types and 25 mm D sizes to accommodate your 22 mm d KOYO NUP2324R cylindrical roller bearings requirements.

| d                            | 22 mm                            |
|------------------------------|----------------------------------|
| maximum p value:             | 19.5 N/mm2;Static 137 N/mm2      |
| D                            | 25 mm                            |
| maximum v value:             | 2.50 m/s                         |
| overall length:              | 20 mm                            |
| material specification:      | Techmet B                        |
| sleeve bearing type:         | Plain Sleeve                     |
| standards met:               | RoHS                             |
| bearing material:            | Multi-layer PTFE with Metal Back |
| series:                      | ТСВ                              |
| operating temperature range: | -58 to +482 °F                   |
| additional details:          | Lead Free                        |
| maximum pv value:            | 1.45 N/mm2 x m/s                 |
