

# NACHI NJ 414 cylindrical roller bearings

We work closely with our NACHI NJ 414 cylindrical roller bearings manufacturing partners to bring the best Nylon cage material: value to 1.5000 in d customers.

|                              |                                   |
|------------------------------|-----------------------------------|
| d                            | 1.5000 in                         |
| cage material:               | Nylon                             |
| unit type:                   | Side Mount                        |
| compatible shaft diameter:   | 1.5000 in                         |
| bearing material:            | 52100 Bearing Steel               |
| finish / coating:            | Gray Paint                        |
| housing material:            | Cast Iron                         |
| flange mounting type:        | NA                                |
| locking device:              | Setscrew Lock                     |
| housing construction:        | Cast Iron                         |
| duty type:                   | Normal Duty                       |
| housing type:                | Ball Bearing Take Up Unit         |
| seal type:                   | Contact                           |
| inner ring width:            | Narrow Inner Race                 |
| operating temperature range: | 200° °F                           |
| insert bearing type:         | Setscrew Lock – Narrow Inner Race |
| lubrication type:            | Grease                            |
| insert material:             | 52100 Bearing Steel               |
| maximum rpm:                 | 3000 rpm                          |
| lubricant:                   | #2 Lithium                        |
| expansion type:              | Non-Expansion Bearing (Fixed)     |

|                          |                            |
|--------------------------|----------------------------|
| misalignment angle:      | 1-1/2 °                    |
| series:                  | TU250                      |
| application:             | General Industrial         |
| bearing style:           | Ball Bearing Take-up Unit  |
| manufacturer catalog:    | <a href="#">Click here</a> |
| bearing type:            | Standard Slot              |
| manufacturer upc number: | 662798258188               |
| bore type:               | Round                      |
