

NKE 6311-Z-NR deep groove ball bearings

What is NKE 6311-Z-NR deep groove ball bearings in mechanical engineering? Manufacturing Service . Upload your 85 mm roller diameter: CAD file for an instant.

roller diameter:	85 mm
roller shape:	Single Flanged
roller width:	44 mm
roller material:	Steel
d	25 mm
radial dynamic load capacity:	63500 N
D	107 mm
radial static load capacity:	25700 N
flange thickness:	13.5 mm
general information:	SMITH-TRAX® special duty track roller bearings are machined from high-alloy steel and are case-h
bearing element:	Tapered Rollers
