

# NKE NJ236-E-M6+HJ236-E cylindrical roller bearings

are a few brands you will find in 1.0000 in d our inventory. Find NKE NJ236-E-M6+HJ236-E cylindrical roller bearings to 0.1875 in outer ring width: see what's in stock!

|                               |                            |
|-------------------------------|----------------------------|
| d                             | 1.0000 in                  |
| outer ring width:             | 0.1875 in                  |
| D                             | 1.3750 in                  |
| outside ring shape:           | Flat                       |
| B                             | 0.1875 in                  |
| precision rating:             | ABEC 1                     |
| closure type:                 | Open                       |
| finish/coating:               | Uncoated                   |
| internal clearance:           | C0                         |
| maximum rpm:                  | 16840 rpm                  |
| operating temperature range:  | -65 to 250 °F              |
| fillet radius:                | 0.015 in                   |
| cage material:                | Brass                      |
| standards met:                | AISI 440C                  |
| radial dynamic load capacity: | 960 lbf                    |
| series:                       | RBC®                       |
| inner ring width:             | 0.1875 in                  |
| Weight                        | 0.025 lbs                  |
| radial static load capacity:  | 970 lbf                    |
