| Days to Ship                         | 9 Days or more                             |
| d                                    | 60   |
| D                                    | 130  |
| B                                    | 46   |
| Precision (JIS)                      | Grade 0                                    |
| Number of Raceway Ring Rows          | Single Row                                 |
| Specifications/Environment           | Standard                                   |
| Basic Load Rating, Dynamic Rating(N) | 169000                                     |
| Internal Clearance Symbol            | CN (Normal Clearance)                      |
| Shaft Bore Config.                   | Cylindrical Bore                           |
| Format symbol                        | N (double brims for the inner ring)        |
| Holder Symbol                        | No   |
| Specifications                       | Standard                                   |
| Symbol of Bearing Ring Shape         | No symbol: Internal diameter cylinder hole |
| Revolution Frequency(rpm)            | 4800                                       |
| Outer ring oil hole                  | Standard                                   |
| Large-capacity type                  | Standard                                   |
| Combination of two pieces            | Standard                                   |
| Cylinder shape (suffix symbol: X)    | No   |
| Raceway Ring Shape                   | Cylindrical Roller                         |
| Load Direction                       | Radial                                     |
| Inner/Outer Ring Material            | Steel                                      |
| Rolling Element Material             | Steel                                      |
