## NSK NAF8511530 needle roller bearings

Various types 1-1/2  $^{\circ}$  misalignment angle: and 2.5000 in d sizes to accommodate your NSK NAF8511530 needle roller bearings requirements.

| d                            | 2.5000 in                            |
|------------------------------|--------------------------------------|
| misalignment angle:          | 1-1/2 °                              |
| bore type:                   | Round                                |
| insert bearing type:         | Setscrew Lock — Narrow Inner<br>Race |
| duty type:                   | Medium Duty                          |
| housing type:                | Pillow Block Bearing                 |
| housing material:            | Ductile Iron                         |
| grease type:                 | #2 Lithium                           |
| locking device:              | Set Screw                            |
| compatible frame type:       | Protected Screw                      |
| seal type:                   | Contact Seal                         |
| compatible frame series:     | T210                                 |
| expansion type:              | Non-Expansion Bearing (Fixed)        |
| cage material:               | Nylon                                |
| insert material:             | 52100 Bearing Steel                  |
| bearing type:                | Medium Duty                          |
| operating temperature range: | 200° °F                              |
| bearing style:               | Pillow Block                         |
| maximum rpm:                 | 3500 rpm                             |
| bearing material:            | 52100 Bearing Steel                  |
| lubrication type:            | Grease                               |
