| Product Group                | B04311                    |
| bore diameter:               | 70 mm                     |
| operating temperature range: | -40 to 200 °C             |
| outside diameter:            | 150 mm                    |
| cage material:               | Steel                     |
| overall width:               | 51 mm                     |
| bearing material:            | Through Hardened Steel    |
| bore type:                   | Straight                  |
| cage type:                   | Pressed                   |
| outer ring type:             | Not Split                 |
| precision rating:            | Not Rated                 |
| internal clearance:          | C3                        |
| finish/coating:              | Uncoated                  |
| closure type:                | Open                      |
| outer ring width:            | 51 mm                     |
| lubrication hole type:       | Lubrication Groove & Hole |

|                            |                            |
|----------------------------|----------------------------|
| inner ring width:          | 51 mm                      |
| dynamic load capacity:     | 420000 N                   |
| fillet radius:             | 2.1 mm                     |
| static load capacity:      | 396000 N                   |
| series:                    | 223                        |
| maximum rpm:               | 3800 rpm                   |
