

# NTN AEL208D1 deep groove ball bearings

Welcome 80 mm d 140 mm D to the NTN AEL208D1 deep groove ball bearings online seller.

|                               |  |
|-------------------------------|--|
| d                             | 80 mm                                      |
| radial dynamic load capacity: | 88 kN                                      |
| D                             | 140 mm                                     |
| radial static load capacity:  | 73.5 kN                                    |
| B                             | 26 mm                                      |
| bearing material:             | Steel (Balls)                              |
| contact angle:                | 25 °                                       |
| maximum rpm:                  | 15000 RPM                                  |
| internal clearance:           | C0   |
| cage material:                | Phenolic Resin                             |
| ball screw application:       | Not for Ball Screws                        |
| finish/coating:               | Uncoated                                   |
| closure type:                 | Open                                       |
| outer ring width:             | 26 mm                                      |
| precision rating:             | ABEC 7 (ISO Class 4), ABEC 9 (ISO Class 2) |
| fillet radius:                | 2 mm                                       |
| operating temperature range:  | -30 to +100 °C                             |
| series:                       | 72   |
