

# SKF C 3088 KMB cylindrical roller bearings

What is SKF C 3088 KMB cylindrical roller bearings in mechanical engineering? Manufacturing 14x22x16 Size (mm) Service . Upload your CAD file for an instant.

|                             |                                   |
|-----------------------------|-----------------------------------|
| Size (mm)                   | 14x22x16                          |
| Bore Diameter (mm)          | 14                                |
| Outer Diameter (mm)         | 22                                |
| Width (mm)                  | 16                                |
| Bearing Type                | Single Row                        |
| Outer Dia (D)               | 22.0000                           |
| Width (B)                   | 16.0000                           |
| Dynamic Load Rating (Cr)    | 10,100                            |
| Static Load Rating (Cor)    | 11,500                            |
| Max Speed (Oil) (X1000 RPM) | 24,000                            |
| Shaft (Fw)                  | 14.000                            |
| Weight (g)                  | 20.70                             |
| Material                    | 52100 Chrome steel, or equivalent |
