

# SKF C 3976 M cylindrical roller bearings

SKF C 3976 M cylindrical roller bearings manufacturer and global supplier of reliable ball and roller ... SKF C 3976 M cylindrical roller bearings Industries Products Manufacturing & Engineering and Agricultural Bearings designed 1.7500 in d to meet the unique requirements of our targeted industries. 3.8000 in D

|                              |                               |
|------------------------------|-------------------------------|
| d                            | 1.7500 in                     |
| expansion type:              | Non-Expansion Bearing (Fixed) |
| D                            | 3.8000 in                     |
| seal type:                   | Felt Seal                     |
| bolt circle diameter:        | 5.3750 in                     |
| pilot diameter:              | 4.5000 in                     |
| B                            | 6.3750 in                     |
| overall depth:               | 3.5000 in                     |
| flange mounting type:        | Four-Bolt Piloted Flange      |
| operating temperature range: | Max 250°                      |
| bearing type:                | Tapered Roller                |
| finish/coating:              | Uncoated                      |
| housing construction:        | Solid Flange Mount            |
| lubrication type:            | Lubrication Fitting           |
| bore type:                   | Round                         |
| replacement bearing:         | RCI-112                       |
| duty type:                   | Standard Duty                 |
| bolt size:                   | 0.4375 in                     |
| housing material:            | Cast Iron                     |
| series:                      | RFP Series                    |

|                              |                  |
|------------------------------|------------------|
| locking device:              | Double Set Screw |
| manufacturer catalog number: | 550325           |
