

SKF GE 100 ESX-2LS plain bearings

What is SKF GE 100 ESX-2LS plain bearings in mechanical engineering? Non-Expansion Bearing (Fixed) expansion type: Manufacturing Service . Upload your CAD file for 1.4375 in d an instant.

d	1.4375 in
expansion type:	Non-Expansion Bearing (Fixed)
D	2.8346 in
series:	B250TW
outer ring width:	0.7870 in
misalignment angle:	1-1/2 °
inner ring width:	1.6890 in
housing construction:	Cast Iron
bore type:	Round
housing type:	Bearing Insert
locking device:	Set Screw Lock
housing material:	Stainless Steel
duty type:	Normal Duty
insert bearing type:	Setscrew Lock – Wide Inner Race
B	1.6890 in
insert material:	440 Stainless Steel
operating temperature range:	200° °F
lubricant:	#2 Lithium
bearing material:	440 Stainless Steel
lubrication type:	Grease
cage material:	Nylon

application:	General Industrial
maximum rpm:	3500 rpm
manufacturer catalog:	Click here
seal type:	Contact
manufacturer upc number:	662798274584
