

SKF NCF2232V cylindrical roller bearings

How do you find the SKF NCF2232V cylindrical roller bearings 0.6250 in d specification? Manufacturers Online General Industrial application: Free check

d	0.6250 in
application:	General Industrial
bore type:	Round
misalignment angle:	1-1/2 °
duty type:	Normal Duty
insert bearing type:	Setscrew Lock – Narrow Inner Race
housing material:	Cast Iron
housing type:	Pillow Block Bearing
locking device:	Set Screw
grease type:	#2 Lithium
seal type:	Nitrile
cage material:	Nylon
expansion type:	Non-Expansion Bearing (Fixed)
bearing type:	Tapped Base
insert material:	52100 Bearing Steel
bearing style:	Pillow Block
operating temperature range:	200 degrees max °F
bearing material:	52100 Bearing Steel
maximum rpm:	3500 rpm
manufacturer catalog:	Click here
lubrication type:	Grease

manufacturer upc number:	662798248479
series:	200
