

SKF PCM 202310 E plain bearings

170 0.3125 in d 22 ° misalignment angle: Million used SKF PCM 202310 E plain bearings instantly searchable. Shop our large selection of parts based on brand, price, description, and location. Order the with stock ...

d	0.3125 in
ball material:	Alloy Steel – heat treated – chrome plated
misalignment angle:	22 °
radial static load capacity:	5110 lbs
shank thread length:	0.6870 in
lubrication:	Unlubricated
rod end type:	Female Threaded
head diameter:	0.8750 in
shank thread size:	5/16-24
head width:	0.3120 in
thread direction:	Left Hand
ball width:	0.4370 in
grade:	Economy/General Purpose
length to ball center:	1.3750 in
lubrication type:	No Fitting
standards met:	SAEJ1120
housing material:	Carbon Steel – Corrosion Resistant Plating
series:	CF
