

# SNR 22311EAW33 spherical roller bearings

are a few brands -30 of +200 °C operating temperature range: you will 65 mm d find in our inventory. Find SNR 22311EAW33 spherical roller bearings to see what's in stock!

|                              |                           |
|------------------------------|---------------------------|
| d                            | 65 mm                     |
| operating temperature range: | -30 of +200 °C            |
| D                            | 120 mm                    |
| cage material:               | Steel                     |
| B                            | 31 mm                     |
| bearing material:            | Steel                     |
| bore type:                   | Tapered 1:12              |
| cage type:                   | Outer Ring Guided         |
| outer ring type:             | Not Split                 |
| precision rating:            | Not Rated                 |
| internal clearance:          | C0                        |
| application:                 | Vibratory Applications    |
| closure type:                | Open                      |
| finish/coating:              | Uncoated                  |
| lubrication hole type:       | Lubrication Groove & Hole |
| outer ring width:            | 31 mm                     |
| dynamic load capacity:       | 202000 N                  |
| fillet radius:               | 1.5 mm                    |
| static load capacity:        | 210000 N                  |
| series:                      | 222                       |
| maximum rpm:                 | 6700 RPM                  |
