## SNR R159.15 wheel bearings

The online SNR R159.15 wheel bearings parts store gives you immediate access to a selection of more than 1.4 million 2.2500 in d new, used, remanufactured.

| d                            | 2.2500 in                              |
|------------------------------|--|
| maximum rpm:                 | 1700 rpm                               |
| D                            | 3.0000 in                              |
| fillet radius:               | 0.0600 in                              |
| В                            | 1.7500 in                              |
| flanges:                     | No Flange                              |
| needle bearing type:         | Machined Bearing with No Inner<br>Ring |
| seal material:               | Rubber                                 |
| closure type:                | Single Sealed                          |
| series:                      | GR — Guiderol                          |
| number of rows:              | 2                                      |
| lubrication hole type:       | Lubrication Groove & Hole              |
| bearing material:            | Chrome Steel                           |
| precision rating:            | Not Rated                              |
| operating temperature range: | -20F to 250 °F                         |
| compatible inner ring:       | MI 28                                  |
| cage material:               | Steel                                  |
| standards met:               | ABMA, ISO                              |
| dynamic load capacity:       | 15250 lbs                              |
| manufacturer catalog number: | 5003610000                             |
| static load capacity:        | 49100 lbs                              |
