Timken 7308WN angular contact ball bearings

Timken 7308WN angular contact ball bearings Product Brochures Double Concentric Collar locking device: , Manufacturing Service . Get Your Free. 1-5/8 in d

d	1-5/8 in
locking device:	Double Concentric Collar
D	4.1250 in
expansion type:	Non-Expansion Bearing (Fixed)
В	5.3750 in
seal type:	Felt
overall height:	5-3/8 in
overall depth:	3-1/2 in
flange mounting type:	Four-Bolt Square
radial dynamic load capacity:	6140 lb
bearing type:	Tapered Roller
<pre>bearing type: operating temperature range:</pre>	Tapered Roller -20 to +220 °F
	•
operating temperature range:	-20 to +220 °F
operating temperature range: housing construction:	-20 to +220 °F Solid Flange Mount
operating temperature range: housing construction: finish/coating:	-20 to +220 °F Solid Flange Mount Uncoated
<pre>operating temperature range: housing construction: finish/coating: bore type:</pre>	-20 to +220 °F Solid Flange Mount Uncoated Round
operating temperature range: housing construction: finish/coating: bore type: lubrication type:	-20 to +220 °F Solid Flange Mount Uncoated Round Lubrication Fitting
operating temperature range: housing construction: finish/coating: bore type: lubrication type: duty type:	-20 to +220 °F Solid Flange Mount Uncoated Round Lubrication Fitting Air Handling
