

# Timken 9117KDDG deep groove ball bearings

How 0.5000 in d do I place an EMERGENCY order for a Timken 9117KDDG deep groove ball bearings that I want to pick up at a our store?

|                               |                               |
|-------------------------------|-------------------------------|
| d                             | 0.5000 in                     |
| radial static load capacity:  | 1444 lb                       |
| D                             | 1.5000 in                     |
| seal type:                    | Felt Seal                     |
| B                             | 2.3750 in                     |
| length through bore:          | 1-11/32 in                    |
| bore type:                    | Round                         |
| operating temperature range:  | +200 to +400 °F               |
| duty type:                    | Standard Duty                 |
| finish/coating:               | Uncoated                      |
| mounting type:                | Three-Bolt Bracket Style      |
| maximum rpm:                  | 800 RPM                       |
| housing material:             | Cast Iron                     |
| lubrication type:             | Lubrication Fitting           |
| locking device:               | Set Screw                     |
| series:                       | FB                            |
| expansion type:               | Non-Expansion Bearing (Fixed) |
| replacement bearing:          | 2-08                          |
| radial dynamic load capacity: | 2611 lb                       |
